

***Energize Missouri Communities* Request for Project Proposals**

The department is seeking proposals from eligible applicants for projects that will reduce the energy use of cities and counties, have a positive impact on their budgets, and enhance the economic development in the Missouri through job creation.

The Department hosted a webinar on Dec. 7 and will hold six application development workshops Dec. 8 through Dec. 17 throughout the state to provide eligible applicants (city and county government officials) with individualized assistance.

Workshops	Attend a Free Application Development Workshop near you. Appointments are available during the morning from 8 a.m. to noon and the afternoon from 1 to 4 p.m. To RSVP for an appointment, contact william.haas@dnr.mo.gov . When making reservations, please provide the following: location, preferred time (a.m. or p.m.), contact person's information and the name of the applicant (city or county)
	Tuesday, Dec. 8 - Chesterfield
	Wednesday, Dec. 9 - Kirksville
	Thursday, Dec. 10 - Maryville
	Tuesday, Dec. 15 - Poplar Bluff
	Wednesday, Dec. 16 - Springfield
	Thursday, Dec. 17 - Sedalia

Program Areas

The department will distribute the *Energize Missouri Communities* grants through four program areas which:

- **Public Building Energy Efficiency Retrofits** - assists eligible applicants with projects that increase the energy efficiency of public buildings including, but not limited to, city halls, courthouses, police and fire stations, and other municipal buildings.
- **Green Streets** - encourages partnerships between eligible applicants and private sector businesses to conduct energy audits, implement energy efficiency projects, as well as update public sector energy infrastructure.
- **Water and Wastewater Treatment Efficiency** - supports a common strategy for energy efficiency measures that eligible applicants can pursue to improve facility energy performance, i.e., energy input per unit of water pumped or treated.
- **Special Community Initiatives** - captures beneficial energy efficiency and conservation projects not incentivized under other programs.

The Request for Project Proposals, program manual, and application forms are available for download. **Deadline for submittal is Jan. 15, 2010 at 4 p.m.**
